✦ Creative Directions

Founded by Laura–Beth and Claudia Eicker–Harris, and headquartered in South Africa with offices in the Netherlands, we’ve been taking our clients in creative directions for over 2 decades.

From conferences to corporate videos, awards events to direct theatre, content creation to destination management, we do it all, and always with a creative twist. We deliver the perfect balance between left– and right–brain thinking by coming up with amazing creative concepts that can be executed within time, logistical and budget parameters. We offer a start–to–finish solution, from concept to implementation and our unique, memorable events are brought to life by a host of experts.

Handpicking suppliers for each event allows us to sculpt every occasion to our clients’ visions, within their budgetary boundaries. Whether it’s a powerful video or a stylish awards event, a surprising in–store activation or a multi–day conference, whether it’s a teambuilding exercise or a destination incentive, we have the expertise, the passion and the manpower to deliver to the very highest standard, managing every aspect of the project from curtain up to final bow.

With audiences from tens to thousands, from Africa to Europe, our aim is to give each person – no matter who they are or where they’re from – a singular, spectacular experience.
